

THE BOURBON NEWS.

SEMI-WEEKLY.

PARIS, BOURBON COUNTY, KENTUCKY: TUESDAY, MAY 29, 1883.

NO. 131.

VOL. II.

CHARLIE MUNDAY caught a four-pound bass Friday out of Stoner.

A SIXTY POUND blue catfish was caught in the Kentucky river, at Frankfort, one day last week.

Ex-Gov. R. M. Bishop's wife died at 4 a. m., Sunday morning in Cincinnati, at the age of 66 years.

HARRY DENNIS fooled with an old pistol at New Liberty, Ky., and killed Dick Holladay too dead to skin.

At Owingsville, Dr. W. H. Downey was fined \$25 for unlawfully selling liquor to a woman's husband.

THE tobacco barn of J. W. Gatewood burned Saturday night near Mt. Sterling. Loss \$6,000. Insurance \$3,400.

TWO PRISONERS in the Owingsville jail grabbed the jailer, and took the key away from him, unlocked the door and fled.

THE Baptist College at Georgetown had 153 students last year. The President now asks for \$100,000 more endowment for it.

It is said that a certain gentleman near town will donate fifty acres of land to the K. C. for machine shops—with a log chain tied to it.

CAPT. TURNEY left here yesterday with a large force of painters, to touch up the Arlington House, Blue Lick Springs, prior to the opening, on June 15th.

S. SALOMON has successfully established the electric light in the Maysville knitting works, and the prospect is that he will soon root gas out of the city.

THE 3,000 striking shoemakers in Cincinnati, have come to the terms of their employers, and now the variety theaters and beer halls will have another big boom.

At Cynthiana, Lady DeJarnett dropped a bay stallion colt, without white, by Jubilee Lambert, record 2:25. Wilson has repeatedly refused \$5,000 for Lady DeJarnett.

ONLY eighteen indictments returned by the grand jury of Clark county recently, and the Democrat congratulates it's people upon a turn-about in the directions of law and order.

J. L. McHANEY, of Wahachie, Texas, blew the gas out at the Ashland House, last week, and the gas nearly blew him out. He was found just in time to have life blown in him.

A SLENDID vein of splint coal has been discovered in Bath county, three miles from Owingsville. The vein is said to be from six to eight feet thick, and of a superior quality.

Mrs. John R. Morgan, formerly Miss Eliza Cogar, of this county, has brought suit for divorce from her husband. Among the allegations in the petition, are that he choked her and that he has no regular home.

MR. HUNTINGTON is about to establish a line of ocean steamers to ply between Newport News and Europe direct, with a view of bringing a part of the immense emigration which is pouring into this country, directly into the South and West.

A MERCHANT from Mayslick on Capt. Green's train yesterday morning, said that he had fallen to such a depth at his home that he could dip up bucketfuls in a place. He fell at our fair grounds, but none in town. Small quantities also fell in Cincinnati.

THE True Kentuckian supplement of Saturday contained sixteen items from the Friday's issue of the BOURBON NEWS—all without credit. Besides all this, Craddock voted in the Republican convention last week at Lexington.

If it's in order, we would like to propose a resolution (if we can meet with a second), that the Bourbon Agricultural Society sell out their grounds to the city for the machine shops, and then buy the bottom lands opposite G. G. White's distillery in the bend of Stoner, for the location of the fair grounds and race track.

In the Mayor's court yesterday, Geo. Fields, colored, for obscenity, was fined \$5 and costs, amounting to \$20, which, if not paid, amounts to 40 days on the rock pile. Luke Connelly was also fined \$5 and costs for obscenity and drunkenness. Yesterday, while he was at work on the rock-pile, he broke the ball and chain off, and escaped.

THE Fretwell boys and Smith Hildreth returned from Dakota, yesterday. Doc and Smith sold out their farm, stock and machinery for about \$2,000 profit. Lan, who is a partner with Mrs. Ev. Rogers, will return in a few days. Geo. Reed and Johnson Rogers doing well—George sowed 900, and Johnson 800 acres of wheat.

Charlie Herbst, Librarian of Macon, Ga., has sent us two mammoth heads of wheat, of which, an editorial in the Macon Telegraph and Messenger alludes to, and states that the probable yield will be from 30 to 40 bushels per acre. The land upon which it was grown, was ordinary Georgia land, but had been fertilized with 40 bushels of cotton seed to the acre.

Oscar Taylor, son of Richard and Mrs. Emily Taylor, formerly of this precinct, died at 12 o'clock Sunday night, at his home in Midway, after long and painful illness. He leaves a wife and three small children. His funeral will take place in Midway, and his remains will be interred in the Millersburg cemetery this afternoon after the arrival of the train due there at 6 o'clock.

—Thos. Costello, salesman for Griffith Bros., millinery men of Indianapolis and Dayton, gave Paris his second or third call of the season last Saturday, and as usual, sold several fine bills. Tom has been on the road for fifteen years, and is decidedly the most reliable and popular salesman in that line that put's his number 9's in the State. Outside of Tom's personal popularity, his goods will sell themselves.

SHERIFF JACK RINGO, of Menifee county, was shot down in front of the Mt. Sterling jail, Thursday night, while leading a mob against it. The mob were prepared to hang John Barnett and his party of desperadoes who were confined in the jail. The guards fired from within the prison and the attackers rained shot in return. Ringo had five bullets in his leg, and will probably lose it. Horses were killed and others of the mob probably wounded. The guards received no injury.

In a long letter in the Cincinnati News Journal Sunday, from Mrs. Walter Davis, at Harrodsburg, the following letter which was found on Walter Davis' person when murdered by Phil Thompson, was published:

HARRODSBURG, April 26.
DEAR PHIL:—A mutual friend tells me that Jessie B. wrote you that I had gotten your wife drunk and caused her to expose herself in Cincinnati. Surely you don't believe a word of it. I can satisfy you when I see you that it is a falsehood. I dislike to expose a friend, and tell you of your cousin's predicament that night but in self-defense, will do so on sight.
Yours, WALTER.

The Seventh Ballot.

Hon. Isaac Caldwell settles the question with regard to the seventh ballot in the following terms:

"There was never a time when I had the right to order the result of the ballot to be announced. I made no mistake and caused no delay on that point. The ballot was never completed or announced; but pending the ballot, Colonel Jones was withdrawn by his leaders, and Mr. Knott was nominated, not by a ballot, but by acclamation, in the absence of a competitor, and without a dissenting vote. I did not decide or rule on the Owen county vote, and in no way contributed to the nomination of Mr. Knott or the defeat of Colonel Jones."

Railroad Meeting.

At the citizens' railroad meeting Saturday night, the Court-House was literally filled with a very enthusiastic and unanimous yeomanry. Mayor Purnell presided in the chair, and after speeches by several citizens, a committee composed of Henry Spears, John T. Hinton, A. Shire, G. C. Lockhart and Judge Turney was appointed to confer with the managers of the K. C. railroad in regard to the location of the machine shops. The citizens of Paris are almost unanimously in favor of donating the fifty acres of land asked for.

Capt. Thomas, after endorsing the land grant to the K. C., also spoke in favor of the formation of a stock company for the erection of a hotel on the burnt district and the erection of several other much needed buildings to rent as business property.

Boyle's Revolving Barrel Churn.

Boyle's Revolving Barrel Churn without dash or paddle has accomplished a revolution in butter-making. It will make more butter out of the same amount of cream and a better quality with less labor than any other churn. A boy can churn ten gallons of cream with ease. It is suspended on its journals, and as it revolves, the cream falls from end to end, and the agitation being equal throughout the whole mass, the globules all separate at the same time and are preserved to a larger per cent. than by the old process. It follows that no half churned cream is left in the buttermilk, or to mix with the butter, which would give it a bad appearance. The dead cream would injure its keeping quality and decrease its value. The cream acts upon the inner round surface of the barrel, and the butter is made by concussion and not by friction. The head is easily removed, and being air tight, the atmosphere is excluded, thereby holding the cream at the proper temperature. I am the agent for this churn for the State of Kentucky, and any one wanting to buy a churn or county right can find me for the present at Thos. Phillip's meat store.

—James Warner cut his throat from ear to ear in Bath county, because his father refused to let him marry. He was only nineteen years old.

—The colored man of the North will smile when he hears that Georgia expects to ship 6,000 car loads of water melons North the coming season.

—An exchange tells of "a young lady losing the sole of her slipper while enjoying the intoxicating whirl of the waltz." Of what profit was it to her if she had gained the whole whirl, if she thereby lost her sole?

—Frank Vandeen, of Covington, was wounded three times at Chicamauga—one wound being in the knee. He broke his leg about a year ago, and by another fall last week injured it again. Frank belonged to the "Sang Diggers" (5th Ky.) of the Kentucky brigade of Infantry, C. S. A.

—In the social world sometimes there comes a dullness and a peculiar stagnation which might seem to be the result of accident, but it is nothing of the sort; it is only reasonable and reasonable; also, because a wave of house cleaning is rolling over the land, and women are busy with the decorator, the upholster, and the "gemman what does do whitewashing." Men haven't anything to do in this line, but foot the bills, and consequently are important factors albeit solemn and sullen.

—In speaking of the prudent use of liquor, Dr. Lyman Beecher says: "We might as well talk of the prudent use of the plague; of poison taken prudently or of vipers and serpents introduced prudently into our homes to glide along as a matter of courtesy to visitors and of amusement to our children. It is not enough to erect the flag ahead, to mark the spot where the drunkard dies. It must be placed at the entrance of his course, proclaiming in warning capitals, 'This is the way to death.'"
